

LETTER OF SUPPORT

From Dr David Oliver, Wisdom Hospice, Rochester UK and University of Kent, UK

I have had the privilege of working with the Croatian Society for Palliative Care for over 10 years and I have been closely involved in the education of health and social care professionals in Croatia – in Zagreb, Varazdin, Dubrovnik and Rijeka – and continue to provide palliative care education for students at the University of Zagreb Medical Faculty.

There is a great need for the further development of palliative care within Croatia to provide the support for patients facing life limiting disease, and their families. This development is urgently needed and I would like to add my support to the CSPM in their efforts to develop palliative care in Croatia.
